

NHS Referral to Treatment Waiting Times

December 2012

Introduction

This briefing provides information on the performance of Local Health Boards (LHBs) against the Welsh Government targets for NHS treatment waiting times. Most NHS waiting times in Wales are measured against the time from referral to treatment (RTT), although there are a number of exceptions.¹ **The RTT is the period of time from referral, by a GP or other medical practitioner, to hospital for treatment.**²

The current Welsh Government targets for NHS RTT waiting times are to ensure that:

- **At least 95 per cent of patients waiting to start treatment must have waited less than 26 weeks from referral to treatment**
- **100 per cent of patients not treated within 26 weeks must be treated in 36 weeks.**

The Welsh Government measures progress against these targets each month, and the figures used are **those for patients waiting to start treatment at the end of the month**. Separate figures for patients treated during each month are published,³ but as these are not covered by the targets they have not been included in this release.

¹ The targets apply to the majority of referrals to NHS hospitals for treatment; however there are a number of exceptions. In addition, some conditions such as cancer have their own specific target, and are therefore not included in the general targets. Further information on referral to treatment targets is available at: Welsh Government, [Referral to Treatment Times – April 2012](#), page 1, 14 June 2012 [accessed 13 December 2012]

² Welsh Government, [NHS Wales Referral to Treatment Times – October 2012](#), 13 December 2012 [accessed 13 December 2012]

³ Welsh Government, [NHS Wales Referral to Treatment Times – October 2012](#), 13 December 2012 [accessed 13 December 2012]

NHS Referral to Treatment Waiting Times in October 2012

Table 1 and figures 1 and 2 show performance against the 26 and 36 week referral to treatment waiting time targets for each LHB, and for the whole of Wales, using the latest figures from October 2012.⁴ It can be seen from table 1 and figure 1 that:

- **In October 2012, neither the 26 nor 36 week targets were met on an All Wales basis.**
- **Powys LHB** achieved the 26 week referral to treatment waiting time target in October 2012.
- **Powys LHB** met the 36 week target in October 2012.
- **Cardiff and Vale University Health Board** was the worst performing LHB for both targets.

Table 1: Performance against waiting time targets at end of October 2012 (a), (c)

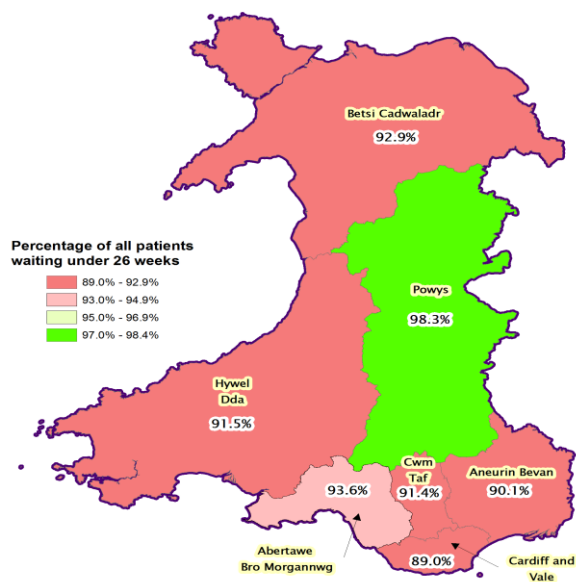

Local Health Board	Under 26 weeks		Under 36 weeks (b)		Total patients waiting for treatment
	Number of patients waiting	Percentage of all patients waiting	Number of patients waiting	Percentage of all patients waiting	
Abertawe Bro Morgannwg	66,718	93.6	73,113	99.6	73,418
Aneurin Bevan (d)	79,162	90.1	87,697	99.8	87,869
Betsi Cadwaladr	73,048	92.9	78,501	99.8	78,638
Cardiff and Vale	66,976	89.0	73,242	97.3	75,273
Cwm Taf	30,136	91.4	32,483	98.5	32,967
Hywel Dda	43,087	91.5	46,465	98.7	47,069
Powys	4,882	98.3	4,965	100.0	4,965
Wales	366,009	91.5	396,466	99.1	400,199

Source: Research Service calculations from Welsh Government, [NHS Wales Referral to Treatment Times – October 2012](#), 13 December 2012 Notes:

- (a) This includes patients who are waiting for cardiac treatment. Cardiac RTT is defined differently from the rest of RTT; please refer to the [Welsh Government quality report](#) for further details.
- (b) The figures for patients waiting under 36 weeks for treatment include those waiting under 26 weeks and between 26 and 36 weeks for treatment.
- (c) Values in the purple shaded boxes met the referral to treatment waiting time targets in October 2012.

Performance against RTT waiting time targets since October 2011

Table 2 and figure 3 focus on the performance against the referral to treatment waiting time targets, on an All Wales basis since October 2011.⁵

It can be seen from table 2 and figure 3 that:

- **Neither target has been met in any month** at an All Wales level between October 2011 and October 2012.
- The percentage of patients waiting less than 26 weeks for treatment in October 2012 increased by 0.4 percentage points from September 2012. The percentage of patients waiting less than 36 weeks in October 2012 was 0.1 percentage point lower than that in September 2012.

Table 2: Performance against waiting time targets, on All Wales basis, October 2011 to October 2012 (a),(b)

Date	Under 26 weeks		Under 36 weeks (b)		Total patients waiting for treatment
	Number of patients waiting	Percentage of all patients waiting	Number of patients waiting	Percentage of all patients waiting	
October 2011	358,615	92.0	382,328	98.1	389,797
November 2011	356,019	92.0	379,348	98.0	386,977
December 2011	350,998	91.4	376,192	98.0	383,891
January 2012	346,716	92.3	369,176	98.3	375,719
February 2012	350,831	93.1	371,823	98.7	376,686
March 2012	366,989	94.0	388,614	99.6	390,228
April 2012	371,479	93.6	394,690	99.5	396,793
May 2012	371,996	93.4	396,192	99.4	398,469
June 2012	375,895	93.0	401,272	99.3	404,075
July 2012	375,265	93.1	400,082	99.2	403,185
August 2012	373,777	91.9	403,258	99.2	406,686
September 2012	364,953	91.1	397,421	99.2	400,622
October 2012	366,009	91.5	396,466	99.1	400,199

Notes – See notes from Table 2.

Trauma and orthopaedic specialty

While **waiting time targets are applied to performance across all specialties**, it is useful to see the contribution of individual specialties towards performance.

In a written statement in March 2011, the then Minister for Health and Social Services highlighted the difficulty in achieving waiting time targets due to pressures within orthopaedic services resulting from increased GP referrals.⁶

In 2011-12, the Welsh Government invested £21.5 million in orthopaedic services. In its Draft Budget 2013-14 it states that this investment enabled the number of patients waiting over 36 weeks for treatment in the trauma and orthopaedic specialty decreased from almost 6,000 in June 2011 to 356 in March 2012.⁷ The Welsh Government allocated an

⁶ Welsh Government, Edwina Hart (Minister for Health and Social Services), **Waiting Times and Orthopaedic Services update**, Cabinet Written Statement, 10 March 2011 [accessed 13 December 2012]

⁷ Welsh Government, **Draft Budget 2013-14: A Budget for Growth and Jobs**, page 38, October 2012 [accessed 13 December 2012]

additional £15 million in 2012-13 to deal with the increased demand for orthopaedic treatment.⁸ It has also stated that £16.6 million will be allocated in recurrent annual funding from 2013-14 with the purpose of sustaining improvements in orthopaedic waiting times.⁹

Table 3 shows the latest figures for the trauma and orthopaedic specialty, at the end of October 2012.¹⁰

Table 3: Waiting times for trauma and orthopaedic specialty at end of October 2012, (a), (b)

Local Health Board	Under 26 weeks		Under 36 weeks (a)		Total patients waiting for treatment
	Number of patients waiting	Percentage of patients waiting	Number of patients waiting	Percentage of all patients waiting	
Abertawe Bro Morgannwg	9,135	89.6	10,190	99.9	10,197
Aneurin Bevan	11,220	88.6	12,661	100.0	12,662
Betsi Cadwaladr	7,335	87.7	8,303	99.3	8,361
Cardiff and Vale	8,239	85.9	9,247	96.4	9,592
Cwm Taf	3,571	87.5	3,974	97.4	4,081
Hywel Dda	6,818	82.1	7,931	95.5	8,304
Powys	494	96.9	510	100.0	510
Wales	46,812	87.2	52,816	98.3	53,707

Notes:

- (a) The figures for patients waiting under 36 weeks for treatment include those waiting under 26 weeks and between 26 and 36 weeks for treatment.
- (b) Values in the purple shaded boxes indicate a level of performance in October 2012 equal to or above that needed to achieve the general waiting time targets.

- In **Powys Teaching Health Board** over 95 per cent of patients were waiting less than 26 weeks.
- In **Aneurin Bevan and Powys LHBs**, all patients had been waiting under 36 weeks for treatment.
- The LHB with the lowest percentage of patients waiting under 26 was **Hywel Dda Local Health Board**.
- **Hywel Dda LHB** had the lowest percentage of patients waiting under 36 weeks.

Figure 4 compares the percentage of patients waiting less than 26 and 36 weeks for treatment in the trauma and orthopaedic specialty in the months from October 2011 to October 2012.¹¹

Figure 4: Percentage of patients waiting less than 26 and 36 weeks in the trauma and orthopaedic specialty, from October 2011 to October 2012

Source: Research Service calculations from Stats Wales [016965] and **Patients waiting to start treatment by latest month, local health board and weeks waiting**

- For each month since October 2011, the percentage of patients waiting under 26 weeks has been **well below the level needed to achieve the waiting time target across all specialties.**
- For each month since October 2011, the percentage of patients waiting under 36 weeks has also been **below the level needed to achieve the waiting time target across all specialties.**
