

NHS Referral to Treatment Waiting Times

January 2013

Introduction

This briefing provides information on the performance of Local Health Boards (LHBs) against the Welsh Government targets for NHS treatment waiting times. Most NHS waiting times in Wales are measured against the time from referral to treatment (RTT), although there are a number of exceptions.¹ **The RTT is the period of time from referral, by a GP or other medical practitioner, to hospital for treatment.**²

The current Welsh Government targets for NHS RTT waiting times are to ensure that:

- **At least 95 per cent of patients waiting to start treatment must have waited less than 26 weeks from referral to treatment**
- **100 per cent of patients not treated within 26 weeks must be treated in 36 weeks.**

The Welsh Government measures progress against these targets each month, and the figures used **are those for patients waiting to start treatment at the end of the month.** Separate figures for patients treated during each month are published,³ but as these are not covered by the targets they have not been included in this release.

¹ The targets apply to the majority of referrals to NHS hospitals for treatment; however there are a number of exceptions. In addition, some conditions such as cancer have their own specific target, and are therefore not included in the general targets. Further information on referral to treatment targets is available at: Welsh Government, **Referral to Treatment Times – April 2012**, page 1, 14 June 2012 [accessed 10 January 2013]

² Welsh Government, **NHS Wales Referral to Treatment Times – November 2012**, 10 January 2013 [accessed 10 January 2013]

³ Welsh Government, **NHS Wales Referral to Treatment Times – November 2012**, 10 January 2013 [accessed 10 January 2013]

NHS Referral to Treatment Waiting Times in November 2012

Table 1 and figures 1 and 2 show performance against the 26 and 36 week referral to treatment waiting time targets for each LHB, and for the whole of Wales, using the latest figures from November 2012.⁴ It can be seen from table 1 and figure 1 that:

- **In November 2012, neither the 26 nor 36 week targets were met on an All Wales basis.**
- **Powys LHB** achieved the 26 week referral to treatment waiting time target in November 2012.
- **Powys LHB** met the 36 week target in November 2012.
- **Cardiff and Vale University Health Board** was the worst performing LHB for both targets.

Table 1: Performance against waiting time targets at end of November 2012 (a), (c)

| Local Health Board | Under 26 weeks | | Under 36 weeks (b) | | Total patients waiting for treatment |
|------------------------|----------------------------|------------------------------------|----------------------------|------------------------------------|--------------------------------------|
| | Number of patients waiting | Percentage of all patients waiting | Number of patients waiting | Percentage of all patients waiting | |
| Abertawe Bro Morgannwg | 67,111 | 93.4 | 71,518 | 99.5 | 71,858 |
| Aneurin Bevan (d) | 76,241 | 90.2 | 84,141 | 99.5 | 84,559 |
| Betsi Cadwaladr | 72,741 | 92.3 | 78,475 | 99.5 | 78,830 |
| Cardiff and Vale | 65,448 | 88.5 | 71,925 | 97.2 | 73,963 |
| Cwm Taf | 29,734 | 91.6 | 31,973 | 98.5 | 32,468 |
| Hywel Dda | 42,428 | 90.7 | 45,980 | 98.3 | 46,759 |
| Powys | 4,940 | 98.1 | 5,037 | 100.0 | 5,037 |
| Wales | 358,643 | 91.1 | 389,049 | 98.9 | 393,474 |

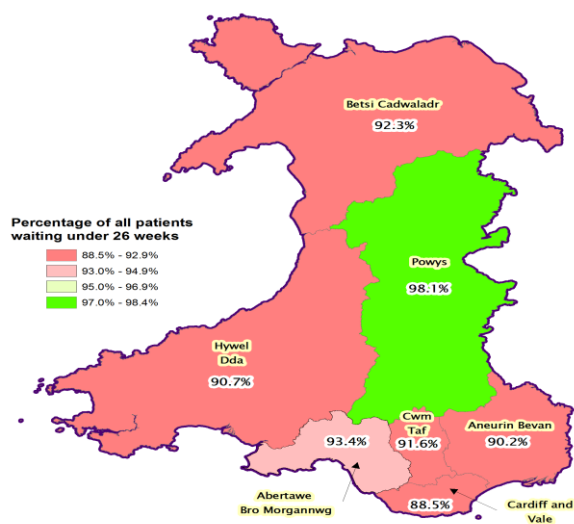

Source: Research Service calculations from Stats Wales, **Patients waiting to start treatment by latest month, local health board and weeks waiting**, 10 January 2012

Notes:

- (a) This includes patients who are waiting for cardiac treatment. Cardiac RTT is defined differently from the rest of RTT; please refer to the **Welsh Government quality report** for further details.
- (b) The figures for patients waiting under 36 weeks for treatment include those waiting under 26 weeks and between 26 and 36 weeks for treatment.
- (c) Values in the purple shaded boxes met the referral to treatment waiting time targets in November 2012.

Performance against RTT waiting time targets since November 2011

Table 2 and figure 3 focus on the performance against the referral to treatment waiting time targets, on an All Wales basis since November 2011.⁵

It can be seen from table 2 and figure 3 that:

- Neither target has been met in any month at an All Wales level between November 2011 and November 2012.
- The percentage of patients waiting less than 26 weeks for treatment in November 2012 decreased by 0.4 percentage points from October 2012, and was the joint lowest in any month since November 2011. The percentage of patients waiting less than 36 weeks in November 2012 was 0.2 percentage point lower than that in October 2012, and was the lowest since February 2012.

Table 2: Performance against waiting time targets, on All Wales basis, November 2011 to November 2012 (a),(b)

| Date | Under 26 weeks | | Under 36 weeks (b) | | Total patients waiting for treatment |
|----------------|----------------------------|------------------------------------|----------------------------|------------------------------------|--------------------------------------|
| | Number of patients waiting | Percentage of all patients waiting | Number of patients waiting | Percentage of all patients waiting | |
| November 2011 | 356,019 | 92.0 | 379,348 | 98.0 | 386,977 |
| December 2011 | 350,998 | 91.4 | 376,192 | 98.0 | 383,891 |
| January 2012 | 346,716 | 92.3 | 369,176 | 98.3 | 375,719 |
| February 2012 | 350,831 | 93.1 | 371,823 | 98.7 | 376,686 |
| March 2012 | 366,989 | 94.0 | 388,614 | 99.6 | 390,228 |
| April 2012 | 371,479 | 93.6 | 394,690 | 99.5 | 396,793 |
| May 2012 | 371,996 | 93.4 | 396,192 | 99.4 | 398,469 |
| June 2012 | 375,895 | 93.0 | 401,272 | 99.3 | 404,075 |
| July 2012 | 375,265 | 93.1 | 400,082 | 99.2 | 403,185 |
| August 2012 | 373,777 | 91.9 | 403,258 | 99.2 | 406,686 |
| September 2012 | 364,953 | 91.1 | 397,421 | 99.2 | 400,622 |
| October 2012 | 366,009 | 91.5 | 396,466 | 99.1 | 400,199 |
| November 2012 | 358,643 | 91.1 | 389,049 | 98.9 | 393,474 |

Notes – See notes from Table 2.

Trauma and orthopaedic specialty

While **waiting time targets are applied to performance across all specialties**, it is useful to see the contribution of individual specialties towards performance.

In a written statement in March 2011, the then Minister for Health and Social Services highlighted the difficulty in achieving waiting time targets due to pressures within orthopaedic services resulting from increased GP referrals.⁶

In 2011-12, the Welsh Government invested £21.5 million in orthopaedic services. In its Draft Budget 2013-14 it states that this investment enabled the number of patients waiting over 36 weeks for treatment in the trauma and orthopaedic specialty decreased from almost 6,000 in June 2011 to 356 in March 2012.⁷ The Welsh Government allocated an

⁶ Welsh Government, Edwina Hart (Minister for Health and Social Services), **Waiting Times and Orthopaedic Services update**, Cabinet Written Statement, 10 March 2011 [accessed 10 January 2013]

⁷ Welsh Government, **Draft Budget 2013-14: A Budget for Growth and Jobs**, page 38, October 2012 [accessed 10 January 2013]

additional £15 million in 2012-13 to deal with the increased demand for orthopaedic treatment.⁸ It has also stated that £16.6 million will be allocated in recurrent annual funding from 2013-14 with the purpose of sustaining improvements in orthopaedic waiting times.⁹

Table 3 shows the latest figures for the trauma and orthopaedic specialty, at the end of November 2012.¹⁰

Table 3: Waiting times for trauma and orthopaedic specialty at end of November 2012, (a), (b)

| Local Health Board | Under 26 weeks | | Under 36 weeks (a) | | Total patients waiting for treatment |
|------------------------|----------------------------|--------------------------------|----------------------------|------------------------------------|--------------------------------------|
| | Number of patients waiting | Percentage of patients waiting | Number of patients waiting | Percentage of all patients waiting | |
| Abertawe Bro Morgannwg | 8,904 | 88.5 | 10,030 | 99.7 | 10,057 |
| Aneurin Bevan | 10,915 | 88.0 | 12,383 | 99.8 | 12,404 |
| Betsi Cadwaladr | 7,448 | 89.3 | 8,286 | 99.3 | 8,342 |
| Cardiff and Vale | 8,060 | 86.4 | 8,976 | 96.2 | 9,332 |
| Cwm Taf | 3,483 | 88.0 | 3,874 | 97.9 | 3,958 |
| Hywel Dda | 6,920 | 81.0 | 8,105 | 94.9 | 8,539 |
| Powys | 476 | 96.6 | 493 | 100.0 | 493 |
| Wales | 46,206 | 87.0 | 52,147 | 98.2 | 53,125 |

Notes:

- (a) The figures for patients waiting under 36 weeks for treatment include those waiting under 26 weeks and between 26 and 36 weeks for treatment.
- (b) Values in the purple shaded boxes indicate a level of performance in November 2012 equal to or above that needed to achieve the general waiting time targets.

- In **Powys Teaching Health Board** over 95 per cent of patients were waiting less than 26 weeks.
- In **Powys Teaching Health Board**, all patients had been waiting under 36 weeks for treatment.
- The LHB with the lowest percentage of patients waiting under 26 and 36 weeks was **Hywel Dda Local Health Board**.

Figure 4 compares the percentage of patients waiting less than 26 and 36 weeks for treatment in the trauma and orthopaedic specialty in the months from November 2011 to November 2012.¹¹

Figure 4: Percentage of patients waiting less than 26 and 36 weeks in the trauma and orthopaedic specialty, from November 2011 to November 2012

Source: Research Service calculations from Stats Wales, **Patients waiting to start treatment by month and grouped weeks**

- For each month since November 2011, the percentage of patients waiting under 26 weeks has been **well below the level needed to achieve the waiting time target across all specialties.**
- For each month since November 2011, the percentage of patients waiting under 36 weeks has also been **below the level needed to achieve the waiting time target across all specialties.**

Further information
